Administrative Energy & Infrastructure Environmental

mimknknk

Cristina Martorana focuses on administrative and environmental law.

She has deep experience in Italian and European administrative law (judicial and out-of-court), particularly in the regulated fields of energy and infrastructure with reference to issues related to the construction, acquisition or financing of plants that produce energy from renewable and conventional sources, environmental law and climate change, network infrastructures, gas, district heating, waste to energy, energy and gas trading contracts, physical and synthetic PPA, PPP and public procurement.

Due to her experience in the sector and the acknowledgment received from the relevant market, she has been invited to numerous conferences and seminars. Cristina is a member of the Agrivoltaica association as an advisor.

Cristina collaborates constantly with industry associations (e.g. Anie and Elettricità Futura) in the drafting of regulatory texts or amendments to the same or to the drafts under approval relating to the relevant market (cf. Simplification Decree Law 2020 and 2021) as well as with ARERA and Terna.

She is also author of articles in both national and international specialised magazines.

She is ranked among the Leading Individuals in the Energy sector by Chambers and Partners which mentions interviews as follows: *"Cristina Martorana is always generous in sharing her remarkable market and regulatory knowledge. She excels at managing the law firm's administrative and transactional teams"*, *"Cristina Martorana is proactive, imaginative and can analyse problems and find solutions"*, *"I always refer to Cristina Martorana due to her great attitude and competence, as well as her 360-degree knowledge of the whole sector"*, *"Cristina Martorana is a reference point in Italy when it comes to administrative law"* (2025), *"Cristina excels in navigating clients through the intricacies of Italian public and regulatory laws. Her unique ability to merge theoretical legal knowledge with practical, real-world insights adds immense value to her work and greatly benefits her clients"* (2024), *"Cristina Martorana is a great problem solver"* (2023), *"[Clients appreciate her] very high level of service in project development [and for] always being available to answer and solve customer problems"* (2022), *"[clients appreciate her] understanding of technical and commercial issues and very high administrative law skills"* (2021), *"[she is] able to combine high-profile technical accuracy with a commercial mindset"* (2020).

She is also mentioned as a Leading Individual in The Legal 500 in the Energy Industry Focus, the directory mentions testimonials say *"Cristina Martorana is very pragmatic and capable of solving critical issues for*

clients with a professional sense of the regulatory framework and the clients' needs", "Cristina Martorana is reliable, knowledgeable, attentive to customer requests, and punctual in completing her activities", "Cristina Martorana is brilliant and extremely competent", "I must highlight the extraordinary quality of Cristina Martorana for her exceptional administrative skills and in-depth understanding of administrative dynamics in legal processes", "Cristina Martorana is a professional who provides valuable insights and opinions on new trends and topics" (2025), "Cristina Martorana is a real expert in energy regulatory matters and project structuring", "Cristina Martorana is the standout of the firm. A professional recognised by the market as a benchmark in the energy sector. She has extensive experience in the field, undeniable problem-solving skills, and the ability to quickly handle complex issues", "Cristina Martorana has such huge competence that when she explains her advice clients are sure that not one serious problem will come about during construction or operational phases" (2024), "Cristina Martorana is a star in the Italian energy space. She will certainly play leading roles in the southern European energy transition, thanks to her unique expertise" (2023), "Cristina Martorana is always available and leads an excellent team" "Cristina Martorana deserves a special mention" "Cristina Martorana has acquired such expertise in the sector also from a commercial point of view that manages to combine business needs with regulatory prerogatives" "Cristina Martorana has great knowledge of this area and excellent interpersonal skills" (2022), "Cristina Martorana is a point of reference. She's always available and proactive in finding solution" and "Cristina Martorana is a serious and prepared professional. The ten years of experience she has gained in the sector makes her an excellent consultant and the availability and courtesy that distinguish her allow the establishment of an extremely profitable professional relationship. Martorana is able to provide very valuable support in many of the issues brought to her attention", "Martorana is a capable, competent, up-to-date professional, with great sensitivity to energy and infrastructure issues, an excellent network, business oriented, with a solid approach, based on the concrete needs of the customer. To these qualities she combines an empathy rarely encountered in professionals of the same seniority that allows her to create trust relationships over time" (2021), "Cristina Martorana: high professionalism combined with a charismatic personality" (2020). The Legal500 has awarded her as Energy Lawyer of the Year during the Legal500 Italy Awards 2025 with the following citation: "Cristina Martorana excels in energy and infrastructure matters, advising on renewable energy project financings as well as taking point on high-stakes energy litigation".

Furthermore, Cristina is mentioned in IFLR1000 as a Highly Regarded for Project Development. Moreover, in 2021 Cristina was mentioned as one of the leading lawyers in Italy in the Energy and Natural Resources section of the "Women in business law expert" guide.

Cristina Martorana has been identified by Who's Who Legal's research among the Italian leading lawyers both in the energy and environmental sectors quoting "Cristina Martorana deserves to be on the list say sources, who admire her deep knowledge of administrative and environmental law as applied to the energy and infrastructure sector".
